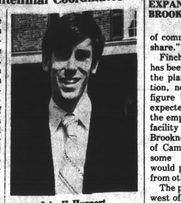
## Park Appoints Bicentennial Coordinator



John H. Huppert

Appomattox Court House National Historical Park has recently appointed a Bicentennial Coordinator to coordinate all Bicentennial Park activities, Last Sunday, March 14, John H. Huppert assumed his positon as Bicentennial coordinator at the park. Mr. Huppert is a 1975 graduate of Lynchburg College with a degree in history and social sciences. While at Lynchburg College Mr. Huppert helped create the Lynchburg College History Club (Istoria) and later became its President. Mr. Huppert holds a Collegiate Professional Teaching Certificate which he received after student teaching at E. C. Glass High School in Lynchburg.

Mr. Huppert's duties as Bicentennial coordinator will be to provide to the public, at no expense, a wide variety of historical programs. These programs will include a historical lecture supported by a u d i o visual demonstrations. These programs will deal primarily with the Civil War as the first major Constitutional crisis. However, the program is extremely flexible and may be altered for individual needs. Any organization, public or private, may request the program. This includes schools, church groups, colleges, civic clubs, etc.

For more information on this program, write: Mr. John H. Huppert, Bicentennial Coordinator, P. O. Box 218, Appomattox, Va. 24522.

state and federal governments that were unheard of a short time ago."

Lawson said that according to state law, the county has to adopt a land use plan by 1980. He said that possible land use objectives might be incorporated in the management study.

Slagle said he thought the county had a "good chance" of receiving approval of the application.

In other action, the supervisors reluctantly approved plans for the Southwestern Virginia Health Planning Agency.

Lawson said the plans were mandated by federal law. He added that if the plan was not approved by Appomattox, the county would have no voice in the agency's actions.

All other localities in Planning District II have approved the health plan, Lawson added.

The board approved the purchase of 1 air-pack and 1 extra cylinder for the Appomattox Volunteer Fire Department at a cost of $600.00 for both pieces of equipment.

The supervisors also agreed to waive portions of the county's "rock festival" ordinance to allow the local Jaycees to sponsor a bluegrass music show June 4 and 5 at Paradise Lake, west of the Town of Appomattox.

The portions of the ordinance waived included a $1,000 fee for each day of festival operation.

The supervisors set 1977 fees for all dog tags at $2.

The board also voted to carpet the county's circuit court room, at a cost of about $700.

### AMERICAN LEGION POST TO CELEBRATE BIRTHDAY

of community spirit we like to share."

Finch said that no timetable has been established as to when the plant would begin production, nor has an employment figure been determined. It is expected, he said, that most of the employee force for the new facility would be hired from the Brookneal area and other parts of Campbell County, although some supervisory personnel would probably be transferred from other Thomasville plants.

The plant site is situated just west of Brookneal. It fronts on U. S. Route 501 and is served by the Norfolk and Western Railway.

Thomasville Furniture Industries is a maker of high quality bedroom, dining room, and living room furniture sold under the Thomasville, Founders, and Huntley names.

It is based at Thomasville, N.C. and is a subsidiary of Armstrong Cork Company, Lancaster, Pa. Armstrong and its associated companies are also leading producers of interior furnishings, including resilient flooring, carpeting, and ceiling systems. The parent company also makes a variety of specialty products for the building, textile, automotive, and other industries.

The new plant at Brookneal would be the 21st Thomasville Furniture Industries manufacturing facility. All of the other 20 are located in the Southeast--one in Virginia (at Appomattox), 18 in North Carolina, and one in Mississippi. Another Armstrong affiliate, E & B Carpet Mills, Inc., operates a carpet yarn spinning plant at Keysville, Va.

### MARCHING BAND TO SPONSOR PROJECT

cont'd from page 1

June 14,15, and 16.

Band members will be taking orders for candles from the "Great Moments Collection", an assortment of Bicentennial commemorative candles containing a delicately scented bayberry wax.

Wrought iron candle holders in three colors will also be available.

Be sure to plan to order and help the marching band members reach their goal.

### SPRING LUNCHEON

The Appomattox Chapter, Longwood Alumni Association is anticipating a large attendance on March 27 at Maude's Restaurant at 12 noon. Please call 352-7726 or 352-5509 by March 22 if you are planning to attend.

### Sorority To Sponsor Blood Pressure Clinic

The Xi Gamma Tau Chapter of Beta Sigma Phi, working jointly with the Appomattox County Rescue Squad, will offer a Blood Pressure Clinic this coming May.

At the sorority meeting last week Mrs. Faye Stratton, Chairman of Service and coordinator of this joint effort, announced final plans had been made.

Xi Gamma Tau's purpose in having the clinic is to make the residents of Appomattox County aware of the seriousness of high blood pressure.

Statistics show that one out of every four persons have high blood pressure and many are unaware because they have not experienced any symptoms and are seemingly healthy.

The clinic will be held in front of King's Market on May 8 and in front of Wilbun's Market on May 15. The hours both Saturdays will be from 10 a.m. until 2 p.m.

# SPREADER DISEASE

**We cure it with Arcadian® liquid for more uniformly higher yields.**

If you've used a dry fertilizer spreader, you've probably seen "spreader disease" which shows up as an uneven growth pattern. You can see where some places got too much fertilizer. While other spots got too little.

What you can't always see is the reduction in yield spreader disease can cost you.

But you can see the difference Arcadian liquid makes. Liquid fertilizer can be applied more uniformly . . . for uniformly higher yields. That's why Arcadian Golden URAN® is ideal for nitrogen top-dressing. And SLF® mixed liquid is perfect for prescription fertilizing. Because every drop delivers the same analysis evenly distributed across every acre.

It's another reason why Arcadian liquid applied uniformly, has proven more profitable than dry fertilizers in field trial comparisons. Liquid is a more accurate way of fertilizing . . . and more profitable for you. Let us prove it to you on your next fertilizer application.

WE WANT TO SAY
YES!

It's no secret, for the past few years things have been financially tough. Now, we think that we see an economically stronger 1976 coming.

And, to show our faith in our country, we're going to unbutton a little and try to say yes to just about any reasonable loan request that's backed up with good credit.

So, if you've been hesitating about that new car, or that game room, or even that prize heifer, why not drop in and buttonhole one of Fidelity's loan officers. Tell him what you want your money for, and give him your credit information, and wait for him to pin a Yes button on you.
